

AES Cookie policy

1. A cookie is a small piece of data sent from our websites or applications to your computer, device hard drive or Internet Browser where it is saved.
2. The cookie contains information to personalise your experience on our website or applications and may improve your experience on the website or applications. The cookie will also identify your device, for example your computer or smart phone.
3. By using our websites or applications you agree that cookies may be forwarded from the relevant website or application to your computer or device. The cookie will enable us to know that you have visited the website or application before and will identify you. We may also use the cookie to prevent fraud and for analytics.
4. You can disable cookies - if you do not want to receive a cookie from the website, you have the option of setting your browser to notify you when you receive a cookie, so that you may determine whether to accept it or not. However, please be aware that if you do turn off 'cookies' in your browser, you will not be able to fully experience some of the features of the AES website.
